110. DISPATCHES

APPENDIX E. Multiple station dispatch instructions are contained in Section F.

(3) If appropriate that field recipients be aware of Headquarters distribution, the Headquarters Distribution Category Symbol will be used. (See APPENDIX E).

c. Headquarters Distribution

The listing of Headquarters offices receiving distribution will be shown at the lower left of the dispatch copies retained at Headquarters.

14. Originator

The originating officer shall sign his true name on the yellow copy of Form 53.

15. Coordination

a. The originator of a dispatch shall determine the extent of coordination required, consistent with geographic, operational, and support considerations.

b. Coordinating officers, within their spheres of responsibility, shall determine whether a dispatch is consistent with approved plans, policies, and procedures.. Coordinators will sign the yellow copy of Form 53 in true name.

c. Dispatches which are addressed to stations under the cognizance of more than one Division should be coordinated with each Division.

16. Release

a. Chiefs and Deputy Chiefs of Divisions are authorized to release dispatches

within their geographical areas of responsibility. Those which transcend the responsibility of more than one Division, raise a question of policy, initiate or significantly affect activities or projects, commit funds, deny a request or disapprove an action or are apt to raise a controversy, shall be released by the D/CO, DD/CO, or Chief, OC-O. Chief or Deputy Chief, OC-SPS will release dispatches addressed to Chief, [REDACTED] Releasing officers shall determine, and by their signature certify, that the dispatch:

(1) Has been properly classified, sterilized, addressed, and coordinated.

(2) Is applicable, appropriate, and consistent with approved plans, policies, and procedures.

(3) Is consistent with operational and security considerations pertinent to the subject matter and to the addressee,

(4) Is consistent with the limitations regarding material which may be sent by pouch (see Section I).

25X1A

b. The releasing officer shall sign his true name on the yellow copy of Form 53 and his pseudonym initials after Chief, [REDACTED] on the "FROM" line; except when the releasing officer is the same as the signing officer, the initials may be omitted.

17. Security Classification and Group Marking

a. The appropriate defense classification will be stamped or typed at the top and bottom of each page of all copies of a dispatch and its enclosures. If typed, capital letters separated by hyphens will be used, as S-E-C-R-E-T.

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

110.1 DISPATCH AND POUCH PROCEDURES - con't

4. Special Shipments

a. Staffs originating shipments of equipment to be forwarded through classified pouch channels have the responsibility for notifying the Field that such shipments are enroute if such notification is necessary.

b. OC-RMS will establish the pouch channel and proper addresses, obtain dates of the estimated arrival of the equipment in the Field, if available and required; and will provide this information to the Staffs upon request.

J. HAND-CARRIED CLASSIFIED MATERIALS

1. Formal Authorization Mandatory

Under no circumstances shall classified material be hand carried to the Field by persons who do not have proper approval. This includes equipment of a classified nature which ordinarily would be transmitted by pouch. Because of the security hazard, material shall be hand carried only in emergency situations where the necessity for immediate delivery outweighs the possibility of a compromise of security.

2. Request for Approval

If the office head concerned considers it essential that material be hand carried, he shall request approval by forwarding three completed copies of Form 1804, Request for and Appointment of Special Courier, (See EXHIBIT E), to Chief, OC-RMS along with the material to be hand carried at least one full working day in advance of the individual's departure. This will allow sufficient time for preparation of the pouch and approval of the special courier appointment to be granted or denied.

9. Signature

Chiefs and Deputy Chiefs of Divisions and Staffs, authorized signing officers, or higher authority may sign dispatches. The pseudonym of the signing officer shall be typed on all copies but his signature need appear only on the original. A signing officer whose pseudonym is not typed on the dispatch shall initial all copies of the dispatch. When the D/CO or DD/CO release a dispatch, their typed pseudonym signature is to be placed on the dispatch and they will also be the signing officer.

10. Date

- a. The date the dispatch is prepared will be typed by the originating office at the left below the text on all Headquarters copies.
- b. The date of actual release (which will be the date used whenever referring to a dispatch) will be typed or stamped at the right, in the space provided by the releasing office.

11. Dispatch Symbols and Numbers

- a. Dispatches will be numbered with the appropriate Division or Staff symbol (See APPENDIX D), followed by the last two digits of the current year, and numerical series beginning with 001. On 1 January of each year, the numerical series will revert to 001. Example: ADM 65-001.
- b. The originator of a dispatch will obtain the appropriate number from the respective Division or Staff registry. If, after a number has been obtained, a dispatch should be cancelled, the issuing Division or Staff is to be notified immediately.

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

c. Should the same number be assigned to two separate dispatches, the issuing Division or Staff will rectify the error as follows:

(1) If the dispatch has not been pouched, a new number will be assigned to the dispatch bearing the latest date.

(2) If the dispatch has been pouched, the dispatch bearing the latest date will be amended by the addition of the letter "A" (e.g., ADM 65-001 becomes ADM 65-001-A). In this case the Division or Staff concerned will be responsible for notifying the field.

12. Enclosures

a. Preparation

(1) A complete set of enclosures, if available, will accompany each copy of the dispatch sent to the action addressee, and where possible or applicable, with the information copies.

25X1A

(3) The following notation will be either typed at the top of the enclosure or on a separate sheet of paper and securely fastened to the enclosure:

"Enclosure No. _____ to Dispatch
No. _____ for Station _____."

or

"Separate Cover Enclosure(s) No. _____
to Dispatch No. _____ for Station _____."

5. Subject

Subjects are to be brief yet specifically define the matter discussed. Special indicators may be used and are to be typed in capital letters immediately preceding the subject. Example: [REDACTED] Overtime Payment - Joseph A. DOE.

25X1A

6. Action Required/Reference

a. The indication of "Action Required" is optional. If used, write a brief statement such as "None," "For Information Only," "See para _____ below," etc.

b. References to dispatches shall be by number and date. References to cables shall be by station or Headquarters number and date. They shall be typed in the space immediately below "Action Required." References may be listed one below the other or, to conserve space, arrange across the page.

7. Processing Block

The "Processing Block" is for the Clandestine Services only and is to be ignored.

8. Content

a. Dispatches shall be limited to official business.

b. No more than one specific subject will be covered in a dispatch.

b. Sterilization

Enclosures are to be prepared in a sterile form, following the same procedures for dispatches and other official documents. If enclosures cannot be sterilized (received from another office already prepared, etc.), other appropriate means, such as split transmission shall be used.

c. Listing on Dispatch

(1) Enclosures will be listed at the lower left of the dispatch, two spaces below the typed name of the signer, with an indication of the number of copies of each enclosure, for example:

Enclosures:

1. DF Logs (1 copy)
2. Monitor Logs (2 copies)

(2) If the text of the dispatch consists merely of a transmittal sentence and a tabulated list of enclosures, it will be sufficient to indicate at the lower left, below the message, the following:

Enclosures: (number) as stated

d. Fragile Enclosures

When enclosures require careful handling during Headquarters processing and upon arrival at their destination, the following precautions will be taken:

(1) The transmittal dispatch will clearly indicate the nature of the enclosures.

(2) The enclosures will be placed

in a sealed envelope which will bear the dispatch number and the notation "FRAGILE ENCLOSURE -- DO NOT FOLD, BEND, STAPLE, MARK OR EXPOSE TO LIGHT." This envelope will be clipped to the dispatch in such a manner as not to damage the contents.

(3) Fragility of the enclosures will be noted in the listing on the pouch manifest and on the innermost pouch wrapper by OC-A/RMB.

e. Separate Cover Enclosures

(1) The notation "UNDER SEPARATE COVER" or "USC" will be typed beside the listing of enclosures on the dispatch when the enclosures will not accompany the dispatch.

(2) Separate cover enclosures do not require a transmittal dispatch when forwarded. This applies also to the forwarding of identities (see Section C).

(3) When the dispatch and separate cover enclosures are sent to OC-A/RMB under a single routing sheet, the forwarding office will call specific attention on the routing sheet to the fact that the enclosures are to be forwarded by separate pouch.

- * (4) Separate cover enclosures to transmittal manifests or transmittal dispatches [REDACTED] or their field stations will be forwarded by OC-A/RMB prior to their respective transmitting document.

PREPARATION OF [REDACTED] CORRESPONDENCE

25X1A

I. PREPARATION OF CORRESPONDENCE

A. Types of Correspondence

Correspondence to [REDACTED] Field Stations consists of the following categories:

25X1A

1. Correspondence addressed exclusively to [REDACTED] Field Stations.

2. Correspondence addressed to [REDACTED] Field Stations and other geographical areas.

25X1A

3. Correspondence to DD/P Chiefs of Stations and Bases within [REDACTED]

25X1A

B. Format

Correspondence should be prepared on Dispatch Form 53 or Transmittal Manifest, Form 1236a, in the established format.

C. Addressee and Originator

1. The addressee will be the officer in charge of the Communications installation, or the Chief of Station or Base, as appropriate.

2. Correspondence prepared at Headquarters, addressed exclusively to [REDACTED] Field Stations, will indicate "FROM: [REDACTED] Washington".

25X1A

25X1A

3. Correspondence prepared at Headquarters to [REDACTED] Field Stations in the name of the Director of Communications will indicate "FROM: [REDACTED]". However, this title will not be used as a general rule; rather, it will be used in those instances wherein the content of the dispatch would require the signature of the Director of Communications as an authorizing official of the Agency.

25X1A

25X1A

b. "Code designations and the true identities thereof will not be transmitted to and from the field in the same cable, dispatch, or pouch."

c. "Cryptonyms and pseudonyms will not be used in communications when their true meaning is clearly deducible from the content of the message. (In the event that a communications cannot be worded in such a manner to eliminate revealing words or phrases, identity designators will be used in place of cryptonyms and pseudonyms.)"

d. "Aliases will not be used in communications between Headquarters and the field.

'NOTE: Since aliases are used overtly, they should be regarded and treated as true names. Thus, aliases may be sent to and from the field as separate cover attachments so that Headquarters will be aware of their use and be able to card them, but individuals should not be referred to by alias in a dispatch as a means of identifying an individual any more that you would use any other sensitive true name (such as that of an Agency employee or a sensitive target true name)."

5. Enclosures

"All enclosures to a dispatch will be

b. "True-name material will not be included
in or attached to a dispatch, but will be sent
as a separate cover enclosure to a transmittal
dispatch."

c. "The transmittal dispatch will be signed,
as in any other case, in pseudonym."

d. "True-name material will always constitute
a separate pouch; it will not be included in a
pouch containing sterilized material, nor will it
be included in the same pouch with its transmittal
dispatch, or any other dispatch, or any material
which would identify the pouch as having originated
in this Agency."

e. "A true-name pouch will not be used for

Category symbol (s) for standard field distribution patterns shall be used to inform addressees of other field recipients when applicable.

2. The original and yellow copies of Form 53 and 53a will be sent to PSD with a Printing Services Requisition, Form 70b, attached indicating the number of copies to be reproduced for each copy.

3. The complete list of addressee stations will appear only on/or attached to the official record copy. The originator is responsible for entering the addressees, assuring that proper distribution is indicated, that collation is completed, and that proper number of copies are assembled for forwarding to addressees.

4. Multiple station dispatches are to be released in accordance with the provision of Section D, 16.

G. TRANSMITTAL MANIFEST

* 1. In order to eliminate unnecessary paper work, the use of Form 1236a, Transmittal Manifest (EXHIBIT D), is encouraged as a substitute for a transmittal dispatch when the material being forwarded requires minimum explanation or directions. 110.1 DISPATCH AND POUCH PROCEDURES

A. GENERAL

This Order prescribes procedures for the preparation and forwarding of ~~dispatches and other~~ documents to field installations ~~channel~~ pouch

25X1A

B. DEFINITIONS

1. Dispatch

A dispatch is an official, written, sterilized communication transmitted by pouch.

2. Pouch

A pouch consists of a series of envelopes or wrappings, enclosing dispatches or other official material appropriately addressed to effect transmission through secure channels between Headquarters and a field installation.

25X1A

*3. ~~is~~ is the special indicator assigned to the Office of Communications pouch channel. The channel is limited to correspondence and other material dealing with: (a) cryptography; and (b) the technical operation and administration of the Agency communications system. The ~~channel~~ channel is not cleared for COMINT material.

25X1A

25X1A

4. ~~CRYPTO~~ CRYPTO

The indicator CRYPTO is used to identify Office of Communications material dealing with sensitive cryptographic topics. Correspondence in this category relates to or contains substantive information on key generation methods for staff cryptosystems; cryptanalytic evaluation of

staff keying material and cryptosystems; vulnerabilities of cryptographic and related equipment; violations of cryptosecurity which would lead to cryptanalytic exploitation. This applies also to communications security matters relating to other U.S. government agencies and foreign governments.

a. Contents of the [REDACTED] pouch will include:

25X1A

(1) Dispatches on subjects designated CRYPTOGRAPHIC.

(2) Actual keying material (pads, tapes, keylists, etc.) and covering dispatches.

*(3) Registered cryptographic material, devices and documents (whether or not a cryptographic clearance is required for access thereto), and their cover dispatches.

*(4) Any "Cryptographic Clearance Required" correspondence material.

b. CRYPTO pouches are prepared by the Office of Communications, Security Staff.

5. Sensitivity Indicators

RYBAT and KAPOK are sensitivity indicators used to ensure special handling, restricted distribution, and maximum security of sensitive operational and administrative dispatches.

a. RYBAT is used when a dispatch contains matter which affects high policy, or concerns administrative, personnel or operational matters of such sensitivity that initial cognizance should be limited to the Office of Communications Area Chief, or a Chief of a DDP Station or Base.

S-E-C-R-E-T

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

b. KAPOK is used when a dispatch contains sensitive operational matter which requires limited distribution and restricted handling.

C. SECURITY

1. Dispatches shall be written in such a way as to prevent the disclosure of sensitive information to unauthorized persons. To a certain extent this can be achieved by care in writing the dispatch, omitting unessential information and recasting or paraphrasing that which must be included. Cryptonyms and pseudonyms shall be used as necessary. They shall not be used in conjunction with their true names or with other information which tends to reveal or confirm their true identities. If a cryptonym or pseudonym does not exist, or if the meaning of the cryptonym or pseudonym would be apparent from the context, reference shall be made instead to: "Identity A", "Identity B", etc. In this case, the true name corresponding to the identity reference shall be sent by separate cover enclosure or if necessary by cable. The true name of the Agency or of distinctive components of the Agency shall never be used in a dispatch. Reference shall not be made in true name to the U.S. Government or to elements thereof.

2. True names of Agency employees shall not be used in dispatches.

3. Biographic information which would identify staff or agent personnel, or prospective personnel, shall be transmitted by separate cover enclosure in which the true name, pseudonym, cryptonym, or social security number of the individual shall not appear. In the related dispatch, the individual shall be referred to by pseudonym, cryptonym, or identity designator, as appropriate. If an identity designator is used, the name corresponding to the designator shall be given in a separate cover enclosure.

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

4. The provisions in subparagraphs C., 1. through C., 3., above apply also to transmittal manifests (See Section G).

5. A document which must refer to an Agency employee in true name, as a W-2 Form, or an enclosure giving the identity corresponding to an identity designator, shall be forwarded as a separate cover enclosure. True names must be preceded by proper courtesy title - Mr., Mrs., or Miss as opposed to pseudonyms in which the last name will always be typed in capital letters.

6. In addition to the above measures, highly sensitive documents should be separated into odd and even pages or cut vertically into two or more sections, each group of pages or sections to be forwarded separately.

7. Excerpts of pertinent Agency regulations governing the above, and additional dispatch and pouch security considerations are attached as APPENDIX A.

8. Questions concerning dispatch and pouch security shall be referred to the OC-Records Management Staff.

D. PREPARATION OF DISPATCHES

1. Format

Dispatches will be prepared on Form 53 (See EXHIBIT A), except those sent to stations where special considerations are in effect. For second and succeeding pages, Form 53a will be used. Courtesy copies may be prepared on "Letterex" paper. (For multiple station dispatches see paragraph F.)

110. DISPATCHES

b. The notation "GROUP 1 - Excluded from Automatic Downgrading and Declassification" shall be stamped, or in the case of reproduction master, typed adjacent to the classification at the bottom of the first page of each copy.

18. Priority and Telepouch Indicators

a. The indicator PRIORITY is to be used only for dispatches considered to be of such an urgent nature as to warrant interruption of routine dispatch processing. The indicator PRIORITY should be typed in capital letters just under the processing block. Form 160 (Priority Tag) should be attached to the covering Routing and Record Sheet.

b. Dispatches prepared for telepouch are considered of such an urgent nature as to warrant transmission by electrical means. The phrase VIA TELEPOUCH should be inserted in the "TO:" and/or "INFO:" line immediately following each addressee requiring electrical transmission. Consult OC-RMS for detailed information of preparation of telepouches and stations which have an Office of Communications telepouch channel.

E. SENSITIVE DOCUMENTS

1. RYBAT or KAPOK operational dispatches will be prepared, coordinated, and released as a regular dispatch. The appropriate sensitivity indicator will be stamped below the defense classification at the top and bottom of each page.

2. Personnel RYBATS will normally be originated by OC-A and released by the D/CO. The official record copy of personnel RYBATS will be filed in OC-A and a dummy dispatch indicating addressees, subject, and dispatch number will be prepared for OC-RMS files.

F. MULTIPLE STATION DISPATCHES

1. A dispatch addressed to four (4) or more stations constitutes a multiple station dispatch. These dispatches are to be prepared on Form 53 and 53a in the same format as a regular dispatch (See EXHIBIT C), except the addressee line will be left blank for later insertion of actual addressees. Category symbol (s) for standard field distribution patterns shall be used to inform addressees of other field recipients when applicable.

2. The original and yellow copies of Form 53 and 53a will be sent to PSD with a Printing Services Requisition, Form 70b, attached indicating the number of copies to be reproduced for each copy.

3. The complete list of addressee stations will appear only on/or attached to the official record copy. The originator is responsible for entering the addressees, assuring that proper distribution is indicated, that collation is completed, and that proper number of copies are assembled for forwarding to addressees.

4. Multiple station dispatches are to be released in accordance with the provision of Section D, 16.

G. TRANSMITTAL MANIFEST

* 1. In order to eliminate unnecessary paper work, the use of Form 1236a, Transmittal Manifest (EXHIBIT D), is encouraged as a substitute for a transmittal dispatch when the material being forwarded requires minimum explanation or directions. The transmittal manifest will show the quantity of each item being transmitted.

2. The transmittal manifest shall be prepared in a sterile form and in the same manner

b. References to dispatches shall be by number and date. References to cables shall be by station or Headquarters [REDACTED] number and date. They shall be typed in the space immediately below "Action Required". References may be listed one below the other or, to conserve space, arranged across the page.

7. Processing Block

The "Processing Block" is for the Clandestine Services only and is to be ignored.

8. Content

a. Dispatches shall be limited to official business.

110.1 DISPATCH AND POUCH PROCEDURES

A. GENERAL

This Order prescribes procedures for the preparation and forwarding of dispatches and other documents to field installations through the [REDACTED] pouch channel.

B. DEFINITIONS

1. Dispatch

A dispatch is an official, written, sterilized communication transmitted by pouch.

2. Pouch

A pouch consists of a series of envelopes or wrappings, enclosing dispatches or other official material appropriately addressed to effect transmission through secure channels between Headquarters and a field installation.

3. [REDACTED]

[REDACTED] is the special indicator assigned to the Office of Communications pouch channel. The channel is limited to correspondence and other material dealing with: (a) cryptography; and (b) the technical operation and administration of the Agency communications system.

4. [REDACTED] Crypto

The indicator CRYPTO is used to identify Office of Communications material dealing with sensitive cryptographic topics. Correspondence in this category relates to or contains substantive information on key generation methods for staff crypto-systems; cryptanalytic evaluation of staff

110. DISPATCHES

OFFICE OF COMMUNICATIONS ORDERS

keying material and cryptosystems; vulnerabilities of cryptographic and related equipment; violations of cryptosecurity which would lead to cryptanalytic exploitation. This applies also to communications security matters relating to other U.S. government agencies and foreign governments.

a. Contents of the [REDACTED] pouch will include:

25X1A

(1) Dispatches on subjects designated CRYPTOGRAPHIC.

(2) Actual keying material (pads, tapes, keylists, etc.) and covering dispatches.

(3) Registered cryptographic material, devices, and documents (whether or not a cryptoclearance is required for access thereto), and their cover dispatches.

(4) Any "Crypto Clearance Required" correspondence material.

b. CRYPTO pouches are prepared by the Office of Communications, Security Staff.

5. Sensitivity Indicators

RYBAT and KAPOK are sensitivity indicators used to ensure special handling, restricted distribution, and maximum security of sensitive operational and administrative dispatches.

a. RYBAT is used when a dispatch contains matter which affects high policy, or concerns administrative, personnel or operational matters of such sensitivity that initial cognizance should be limited to the Office of Communications Area Chief, or a Chief of a DDP Station or Base.

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

f. Separate Cover True Name Material

In order to eliminate the necessity for the preparation of transmittals for certain types of true-name material normally forwarded to the field as separate cover enclosures, the following procedures are to be followed:

(1) Documents covering actions of a personnel nature such as travel orders, career service actions, biographic sketches, etc., will be listed on a pouch manifest as items under the true name of the individual concerned. If there is an identifying number to the document, this will be shown in the column under "Dispatch Number". Items such as Credit Union Statements, W-2 Forms, etc., will be entered only as items showing the total enclosed.

(2) The pouch manifest will be addressed in the same manner as a dispatch, but it will carry no signature. As the pouch manifest is a three-part set, a copy for the releasing Division, or originator if required, can be provided by adding a sheet of "Letterex" paper at the time of preparation.

(3) The manifest will be released by the appropriate Division on the pink copy.

(4) All copies of the manifest and attachments will be forwarded to OC-RMS which will assign a Headquarters pouch number, enter the date, and distribute the manifest copies.

(5) A sample manifest is attached as EXHIBIT B.

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

13. Distribution

a. Number of Copies

Dispatches will be prepared in the number of copies indicated below:

3 copies	All Areas, as well as other addresses as specifically required.
2 copies	Senior Communications Officer, [REDACTED]
1 copy	Communications Officer at all field stations other than above.
Yellow Copy	Official record copy.
Blue Copy	Official chrono copy.
Other copies	Division and other Headquarters distribution as required.

25X1A

b. Field Distribution

(1) A listing of addressee field stations not covered by a category symbol will appear at the lower left of the dispatch below the listing of enclosures. An indication of whether enclosures are included will follow each addressee listed.

(2) Dispatches which fall under the Office of Communications Standard Distribution Categories will use the category symbol listed in

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

as a dispatch with regard to numbering, addressing, number of copies, dating, originator, and releasing office responsibilities. "Letterex" tissue should be used to produce additional copies as required.

3. Except for material specifically covered by special procedures, the transmittal manifest shall be delivered to OC-RMS with the material which is to be forwarded firmly attached. Any material which is to be forwarded separately shall be so identified and clipped, not stapled, to the transmittal.

H. DISPATCH PROCESSING

1. Releasing Office

a. After a dispatch has been released, dated, and if necessary, reproduced by the appropriate office, it will be assembled and forwarded to OC-RMS as follows under a Routing and Record Sheet, Form 610, upon which should be noted any special pouching instructions for OC-RMS:

(1) Copies for the addressee.

(2) Copies to be sent to information addressees in the field.

(3) Yellow official record copy with background material firmly attached.

(4) Headquarters file copies.

b. Enclosures forwarded with the dispatch, either to the action addressee or to information addresses, shall be firmly attached to the appropriate copy of the dispatch.

c. Separate cover enclosures shall be

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

so identified and placed below the last copy of the dispatch.

d. Form 26, Control and Cover Sheet for TOP SECRET Documents, is to be used on TOP SECRET dispatches. TOP SECRET dispatches must be hand carried through coordination, release, and delivered to OC-RMS.

2. OC-RMS

OC-RMS is responsible for:

a. Screening outgoing dispatches for discrepancies (i.e., absence of enclosures, lack of appropriate number of copies, etc.) compliance with prescribed format, procedures, sterilization and security regulations, and releasing signature.

b. Preparing and forwarding pouches, via normal or special channels.

c. Arranging for shipment of over-size equipment and materials via pouch channels.

d. Obtaining clearance and preparing pouches for hand carrying.

e. Securing weight and size waivers as necessary.

f. Returning to the originator material which is improperly prepared.

3. Waivers

a. OC-RMS is to be notified as to size, weight, and content of packages or crates of equipment and other articles exceeding established pouch size and weight limitations in order to make the necessary arrangements for preparation and delivery to the appropriate courier services. OC-RMS should also be informed as to deadline dates by which such materials are due in the addressee station.

b. Restrictions on shipment of contraband material may not be waived.

4. Special Shipments

a. Staffs originating shipments of equipment to be forwarded through classified pouch channels have the responsibility for notifying the Field that such shipments are enroute if such notification is necessary.

b. OC-RMS will establish the pouch channel and proper addresses, obtain dates of the estimated arrival of the equipment in the Field, if available and required; and will provide this information to the Staffs upon request.

J. HAND-CARRIED CLASSIFIED MATERIALS

1. Formal Authorization Mandatory

Under no circumstances shall classified material be hand carried to the Field by persons who do not have proper approval. This includes equipment of a classified nature which ordinarily would be transmitted by pouch. Because of the security hazard, material shall be hand carried only in emergency situations where the necessity for immediate delivery outweighs the possibility of a compromise of security.

2. Request for Approval

If the office head concerned considers it essential that material be hand carried, he shall request approval by forwarding three completed copies of Form 1804, Request for and Appointment of Special Courier, (see EXHIBIT E), to Chief, OC-RMS along with the material to be hand carried at least one full working day in advance of the individual's departure. This will allow sufficient time for preparation of the pouch and approval of the special courier appointment to be granted or denied.

3. Release of Pouch

If approval is granted, OC-RMS shall prepare the pouch and will brief the special courier.

*4. Pouches Hand Carried from the Field

An employee authorized by a Chief of Station or Base or an OC Area Chief to hand carry material to Headquarters shall deliver it immediately, unopened to the Chief, OC-RMS, for processing in accordance with normal procedure for incoming material. Should he arrive during non-working hours, he shall leave the material with the Headquarters Signal Center Duty Officer for delivery to OC-RMS at the beginning of the next working day.

K. REPOUCHING OF LATERAL POUCHES/DISPATCHES

Lateral dispatches or pouches when received in OC-RMS are repouched to the addressee station unless the station is in a satellite country. In the latter case these are referred to the appropriate Division for action. OC-RMS, however, must be notified of the disposition of the pouch.

Logistics Supply Depots in APPENDIX C.)

5. Subject

Subjects are to be brief yet specifically define the matter discussed. Special indicators may be used and are to be typed in capital letters immediately preceding the subject. Example: [REDACTED] Overtime Payment - Joseph A. DOE.

25X1A

6. Action Required/Reference

a. The indication of "Action Required" is optional. If used, write a brief statement such as "None", "For Information Only", "See para _____ below", etc.

b. References to dispatches shall be by number and date. References to cables shall be by station or Headquarters DIR/WASH number and date. They shall be typed in the space immediately below "Action Required". References may be listed one below the other or, to conserve space, arranged across the page.

7. Processing Block

The "Processing Block" is for the Clandestine Services only and is to be ignored.

8. Content

a. Dispatches shall be limited to official business.

b. No more than one specific subject will be covered in a dispatch.

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

9. Signature

Chiefs and Deputy Chiefs of Divisions and Staffs, authorized signing officers, or higher authority may sign dispatches. The pseudonym of the signing officer shall be typed on all copies but his signature need appear only on the original. A signing officer whose pseudonym is not typed on the dispatch shall initial all copies of the dispatch. When the D/CO or DD/CO release a dispatch, their typed pseudonym signature is to be placed on the dispatch and they will also be the signing officer.

10. Date

a. The date the dispatch is prepared will be typed by the originating office at the left below the text on all Headquarters copies.

b. The date of actual release (which will be the date used whenever referring to a dispatch) will be typed or stamped at the right, in the space provided by the releasing office.

11. Dispatch Symbols and Numbers

a. Dispatches will be numbered with the appropriate Division or Staff symbol (See APPENDIX D), followed by the last two digits of the current year, and numerical series beginning with 001. On 1 January of each year, the numerical series will revert to 001. Example: ADM 65-001.

b. The originator of a dispatch will obtain the appropriate number from the respective Division or Staff registry. If, after a number has been obtained, a dispatch should be cancelled, the issuing Division or Staff is to be notified immediately.

S-E-C-R-E-T

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

c. Should the same number be assigned to two separate dispatches, the issuing Division or Staff will rectify the error as follows:

(1) If the dispatch has not been pouched, a new number will be assigned to the dispatch bearing the latest date.

(2) If the dispatch has been pouched, the dispatch bearing the latest date will be amended by the addition of the letter "A" (e.g., ADM 65-001 becomes ADM 65-001-A). In this case the Division or Staff concerned will be responsible for notifying the field.

12. Enclosures

a. Preparation

(1) A complete set of enclosures, if available, will accompany each copy of the dispatch sent to the action addressee, and where possible or applicable, with the information copies.

(2) Plain paper without the U.S. Government watermark is to be used for enclosures.

(3) The following notation will be either typed at the top of the enclosure or on a separate sheet of paper and securely fastened to the enclosure:

"Enclosure No. _____ to Dispatch
No. _____ for Station _____."

or

"Separate Cover Enclosure(s) No. _____
to Dispatch No. _____ for Station _____."

(3) If appropriate that field recipients be aware of Headquarters distribution, the Headquarters Distribution Category Symbol will be used. (See APPENDIX E).

c. Headquarters Distribution

The listing of Headquarters offices receiving distribution will be shown at the lower left of the dispatch copies retained at Headquarters.

14. Originator

The originating officer shall sign his true name on the yellow copy of Form 53.

15. Coordination

a. The originator of a dispatch shall determine the extent of coordination required, consistent with geographic, operational, and support considerations.

b. Coordinating officers, within their spheres of responsibility, shall determine whether a dispatch is consistent with approved plans, policies, and procedures.. Coordinators will sign the yellow copy of Form 53 in true name.

c. Dispatches which are addressed to stations under the cognizance of more than one Division should be coordinated with each Division.

16. Release

a. Chiefs and Deputy Chiefs of Divisions are authorized to release dispatches

Date: 23 August 1966

25X1A within their geographical areas of responsibility. Those which transcend the responsibility of more than one Division, raise a question of policy, initiate or significantly affect activities or projects, commit funds, deny a request or disapprove an action or are apt to raise a controversy, shall be released by the D/CO, DD/CO, or Chief, OC-O. Chief or Deputy Chief, OC-SPS will release dispatches addressed to Chief, [REDACTED]. Releasing officers shall determine, and by their signature certify, that the dispatch:

(1) Has been properly classified, sterilized, addressed, and coordinated.

(2) Is applicable, appropriate, and consistent with approved plans, policies, and procedures.

(3) Is consistent with operational and security considerations pertinent to the subject matter and to the addressee,

(4) Is consistent with the limitations regarding material which may be sent by pouch (see Section I).

25X1A b. The releasing officer shall sign his true name on the yellow copy of Form 53 and his pseudonym initials after Chief, [REDACTED] on the "FROM" line; except when the releasing officer is the same as the signing officer, the initials may be omitted.

17. Security Classification and Group Marking

a. The appropriate defense classification will be stamped or typed at the top and bottom of each page of all copies of a dispatch and its enclosures. If typed, capital letters separated by hyphens will be used, as S-E-C-R-E-T.

25X1A

a. "The fact that a code designation for a non-██████ entity is available does not mean that it should be used in every instance. Code designations will be used only when disclosure of the true identity of persons, organizations, or activities would reveal covert or sensitive relationships in connection with ██████ or when such disclosure would be harmful or detrimental to the interests of ██████ or the persons, organizations, or activities concerned."

25X1A

25X1A

b. "Code designations and the true identities thereof will not be transmitted to and from the field in the same cable, dispatch, or pouch."

c. "Cryptonyms and pseudonyms will not be used in communications when their true meaning is clearly deducible from the content of the message. (In the event that a communications cannot be worded in such a manner to eliminate revealing words or phrases, identity designators will be used in place of cryptonyms and pseudonyms.)"

d. "Aliases will not be used in communications between Headquarters and the field."

'NOTE: Since aliases are used overtly, they should be regarded and treated as true names. Thus, aliases may be sent to and from the field as separate cover attachments so that Headquarters will be aware of their use and be able to card them, but individuals should not be referred to by alias in a dispatch as a means of identifying an individual any more that you would use any other sensitive true name (such as that of an Agency employee or a sensitive target true name)."

6. True-Name Material

a. "Material which by its very nature must
contain the true names of [REDACTED] personnel or of
persons, organizations, places, etc., having
sensitive operational relationships with [REDACTED]
will be transmitted to the field (as set forth)
below.

25X1A

'NOTE: The [REDACTED] indicator does not
authorize indiscriminate use of true names in
correspondence with the field."

25X1A

b. "True-name material will not be included
in or attached to a dispatch, but will be sent
as a separate cover enclosure to a transmittal
dispatch."

c. "The transmittal dispatch will be signed,
as in any other case, in pseudonym."

d. "True-name material will always constitute
a separate pouch; it will not be included in a
pouch containing sterilized material, nor will it
be included in the same pouch with its transmittal
dispatch, or any other dispatch, or any material
which would identify the pouch as having originated
in this Agency."

e. "A true-name pouch will not be used for
the transmission of unsterilized material except
as outlined above."

a. [REDACTED] 65-123, dtd. 1 Feb. 1965 b. DIR 12345, dtd. 1 March 1965																																							
<p>1. This is a sample [REDACTED] dispatch prepared on Form 53, a pre-punched, 5-part, carbon-interleaved set. "Letterex" paper may be used for additional copies. Preparation and distribution of copies should be held to the minimum.</p> <p>2. Use single spacing, with a double space between paragraphs and sub-paragraphs. A brief dispatch may be double spaced.</p> <p>3. Paragraphs will be numbered consecutively and will follow the indentation pattern used in this sample. A single paragraph dispatch will not be numbered.</p> <p>4. While an actual dispatch would require copies as described in Section D, paragraph 13, a, this sample dispatch includes only the following representative copies:</p> <p>a. The original of the official dispatch form will be sent to the field. Signature is in pseudonym. The carbon copies sent to the field addressees will be like the original.</p> <p>b. The yellow copy of the dispatch is the official record copy. Signatures of the originating, coordinating, and releasing officers will appear below the solid black line in true name. Other Headquarters file copies will be like the official record copy, however, they will not ordinarily carry the handwritten signature.</p>

110. DISPATCHES

b. KAPOK is used when a dispatch contains sensitive operational matter which requires limited distribution and restricted handling.

C. SECURITY

1. Dispatches shall be written in such a way as to prevent the disclosure of sensitive information to unauthorized persons. To a certain extent this can be achieved by care in writing the dispatch, omitting unessential information and recasting or paraphrasing that which must be included. Cryptonyms and pseudonyms shall be used as necessary. They shall not be used in conjunction with their true names or with other information which tends to reveal or confirm their true identities. If a cryptonym or pseudonym does not exist, or if the meaning of the cryptonym or pseudonym would be apparent from the context, reference shall be made instead to: "Identity A", "Identity B", etc. In this case, the true name corresponding to the identity reference shall be sent by separate cover enclosure or if necessary by cable. The true name of the Agency or of distinctive components of the Agency shall never be used in a dispatch. Reference shall not be made in true name to the U.S. Government or to elements thereof.

2. True names of Agency employees shall not be used in dispatches.

3. Biographic information which would identify staff or agent personnel, or prospective personnel, shall be transmitted by separate cover enclosure in which the true name, pseudonym, cryptonym, or social security number of the individual shall not appear. In the related dispatch, the individual shall be referred to by pseudonym, cryptonym, or identity designator, as appropriate. If an identity designator is used, the name corresponding to the designator shall be given in a separate cover enclosure.

4. The provisions in subparagraphs C., 1. through C., 3., above apply also to transmittal manifests (See Section G).

5. A document which must refer to an Agency employee in true name, as a W-2 Form, or an enclosure giving the identity corresponding to an identity designator, shall be forwarded as a separate cover enclosure. True names must be preceded by proper courtesy title - Mr., Mrs., or Miss as opposed to pseudonyms in which the last name will always be typed in capital letters.

6. In addition to the above measures, highly sensitive documents should be separated into odd and even pages or cut vertically into two or more sections, each group of pages or sections to be forwarded separately.

7. Excerpts of pertinent Agency regulations governing the above, and additional dispatch and pouch security considerations are attached as APPENDIX A.

8. Questions concerning dispatch and pouch security shall be referred to the OC-Records Management Staff.

D. PREPARATION OF DISPATCHES

1. Format

Dispatches will be prepared on Form 53 (See EXHIBIT A), except those sent to stations where special considerations are in effect. For second and succeeding pages, Form 53a will be used. Courtesy copies may be prepared on "Letterex" paper. (For multiple station dispatches see paragraph F.)

110. DISPATCHES

b. The notation "GROUP 1 - Excluded from Automatic Downgrading and Declassification" shall be stamped, or in the case of reproduction master, typed adjacent to the classification at the bottom of the first page of each copy.

18. Priority and Telepouch Indicators

a. The indicator PRIORITY is to be used only for dispatches considered to be of such an urgent nature as to warrant interruption of routine dispatch processing. The indicator PRIORITY should be typed in capital letters just under the processing block. Form 160 (Priority Tag) should be attached to the covering Routing and Record Sheet.

b. Dispatches prepared for telepouch are considered of such an urgent nature as to warrant transmission by electrical means. The phrase VIA TELEPOUCH should be inserted in the "TO:" and/or "INFO:" line immediately following each addressee requiring electrical transmission. Consult OC-RMS for detailed information on preparation of telepouches and stations which have an Office of Communications telepouch channel.

E. SENSITIVE DOCUMENTS

1. RYBAT or KAPOK operational dispatches will be prepared, coordinated, and released as a regular dispatch. The appropriate sensitivity indicator will be stamped below the defense classification at the top and bottom of each page.

2. Personnel RYBATS will normally be originated by OC-A and released by the D/CO. The official record copy of personnel RYBATS will be filed in OC-A and a dummy dispatch indicating addressees, subject, and dispatch number will be prepared for OC-RMS files.

3. Sensitive dispatches will be enveloped and delivered to OC-RMS Sensitive Document Unit for processing.

F. MULTIPLE STATION DISPATCHES

1. A dispatch addressed to four (4) or more stations constitutes a multiple station dispatch. These dispatches are to be prepared on Form 53 and 53a in the same format as a regular dispatch (see EXHIBIT C), except the addressee line will be left blank for later insertion of actual addressees. Category symbol(s) for standard field distribution patterns shall be used to inform addressees of the other field recipients when applicable.

2. The original and yellow copies of Form 53 and 53a will be sent to PSD with a Printing Services Requisition, Form 70b, attached indicating the number of copies to be reproduced for each copy.

3. The complete list of addressee stations will appear only on/or attached to the official record copy. The originator is responsible for entering the addressees, assuring that proper distribution is indicated, that collation is completed, and that proper number of copies are assembled for forwarding to addressees.

4. Multiple station dispatches are to be released in accordance with the provision of Section D, 16.

G. TRANSMITTAL MANIFEST

1. In order to eliminate unnecessary paper work, the use of Form 1236, Transmittal Manifest (EXHIBIT D), is encouraged as a substitute for a transmittal dispatch when the material being forwarded requires minimum explanation or directions. The transmittal manifest will show the quantity of each item being transmitted.

2. The transmittal manifest shall be prepared in a sterile form and in the same manner

Subjects are to be brief yet specifically define the matter discussed. Special indicators may be used and are to be typed in capital letters immediately preceding the subject. Example: [REDACTED] Overtime Payment - Joseph A. DOE.

25X1A

6. Action Required/Reference

a. The indication of "Action Required" is optional. If used, write a brief statement such as "None", "For Information Only", "See para _____ below", etc.

b. References to dispatches shall be by number and date. References to cables shall be by station or Headquarters DIR/WASH number and date. They shall be typed in the space immediately below "Action Required". References may be listed one below the other or, to conserve space, arranged across the page.

7. Processing Block

The "Processing Block" is for the Clandestine Services only and is to be ignored.

8. Content

a. Dispatches shall be limited to official business.

b. No more than one specific subject will be covered in a dispatch.

APPENDIX E. Multiple station dispatch instructions are contained in Section

E. 3

(3) If appropriate that field recipients be aware of Headquarters distribution, the Headquarters Distribution Category Symbol will be used. (See APPENDIX E).

c. Headquarters Distribution

The listing of Headquarters offices receiving distribution will be shown at the lower left of the dispatch copies retained at Headquarters.

14. Originator

The originating officer shall sign his true name on the yellow copy of Form 53.

15. Coordination

a. The originator of a dispatch shall determine the extent of coordination required, consistent with geographic, operational, and support considerations.

b. Coordinating officers, within their spheres of responsibility, shall determine whether a dispatch is consistent with approved plans, policies, and procedures.. Coordinators will sign the yellow copy of Form 53 in true name.

c. Dispatches which are addressed to stations under the cognizance of more than one Division should be coordinated with each Division.

16. Release

a. Chiefs and Deputy Chiefs of Divisions are authorized to release dispatches

Date: 23 August 1966

25X1A within their geographical areas of responsibility. Those which transcend the responsibility of more than one Division, raise a question of policy, initiate or significantly affect activities or projects, commit funds, deny a request or disapprove an action or are apt to raise a controversy, shall be released by the D/CO, DD/CO, or Chief, OC-O. Chief or Deputy Chief, OC-SPS will release dispatches addressed to Chief, [REDACTED]. Releasing officers shall determine, and by their signature certify, that the dispatch:

(1) Has been properly classified, sterilized, addressed, and coordinated.

(2) Is applicable, appropriate, and consistent with approved plans, policies, and procedures.

(3) Is consistent with operational and security considerations pertinent to the subject matter and to the addressee,

(4) Is consistent with the limitations regarding material which may be sent by pouch (see Section I).

25X1A b. The releasing officer shall sign his true name on the yellow copy of Form 53 and his pseudonym initials after Chief, [REDACTED] on the "FROM" line; except when the releasing officer is the same as the signing officer, the initials may be omitted.

17. Security Classification and Group Marking

a. The appropriate defense classification will be stamped or typed at the top and bottom of each page of all copies of a dispatch and its enclosures. If typed, capital letters separated by hyphens will be used, as S-E-C-R-E-T.

4. Use of Code Designations

a. "The fact that a code designation for a non [REDACTED] entity is available does not mean that it should be used in every instance. Code designations will be used only when disclosure of the true identity of persons, organizations, or activities would reveal covert or sensitive relationships in connection with [REDACTED] or when such disclosure would be harmful or detrimental to the interests of [REDACTED] or the persons, organizations, or activities concerned."

b. "Code designations and the true identities thereof will not be transmitted to and from the field in the same cable, dispatch, or pouch."

c. "Cryptonyms and pseudonyms will not be used in communications when their true meaning is clearly deducible from the content of the message. (In the event that a communications cannot be worded in such a manner to eliminate revealing words or phrases, identity designators will be used in place of cryptonyms and pseudonyms.)"

d. "Aliases will not be used in communications between Headquarters and the field."

'NOTE: Since aliases are used overtly, they should be regarded and treated as true names. Thus, aliases may be sent to and from the field as separate cover attachments so that Headquarters will be aware of their use and be able to card them, but individuals should not be referred to by alias in a dispatch as a means of identifying an individual any more that you would use any other sensitive true name (such as that of an Agency employee or a sensitive target true name)."

5. Enclosures

"All enclosures to a dispatch will be

'NOTE: This requirement is made to allow:
(1) plausible denial of [REDACTED] interest,
and (2) passage to personnel unwitting of that
interest should the occasion arise and the
contents permit it."

25X1A

6. True-Name Material

a. "Material which by its very nature must
contain the true names of [REDACTED] personnel or of
persons, organizations, places, etc., having
sensitive operational relationships with [REDACTED]
will be transmitted to the field (as set forth)
below.

25X1A

25X1A

'NOTE: The [REDACTED] indicator does not
authorize indiscriminate use of true names in
correspondence with the field."

25X1A

b. "True-name material will not be included
in or attached to a dispatch, but will be sent
as a separate cover enclosure to a transmittal
dispatch."

c. "The transmittal dispatch will be signed,
as in any other case, in pseudonym."

d. "True-name material will always constitute
a separate pouch; it will not be included in a
pouch containing sterilized material, nor will it
be included in the same pouch with its transmittal
dispatch, or any other dispatch, or any material
which would identify the pouch as having originated
in this Agency."

e. "A true-name pouch will not be used for
the transmission of unsterilized material except
as outlined above."

3. Waivers

a. OC-RMS is to be notified as to size, weight, and content of packages or crates of equipment and other articles exceeding established pouch size and weight limitations in order to make the necessary arrangements for preparation and delivery to the appropriate courier services. OC-RMS should also be informed as to deadline dates by which such materials are due in the addressee station.

b. Restrictions on shipment of contra-band material may not be waived.

4. Special Shipments

a. Staffs originating shipments of equipment to be forwarded through classified pouch channels have the responsibility for notifying the field that such shipments are enroute if such notification is necessary.

b. OC-RMS will establish the pouch channel and proper addresses, obtain dates of the estimated arrival of the equipment in the field, if available and required; and will provide this information to the Staffs upon request.

J. HAND-CARRIED CLASSIFIED MATERIALS

1. Formal Authorization Mandatory

Under no circumstances shall classified material be hand carried to the field by persons who do not have proper approval. This includes equipment of a classified nature which ordinarily would be transmitted by pouch. Because of the security hazard, material shall be hand carried only in emergency situations where the necessity for immediate delivery outweighs

S-E-C-R-E-T

110. DISPATCHES OFFICE OF COMMUNICATIONS ORDERS

the possibility of a compromise of security.

2. Request for Approval

If the office head concerned considers it essential that material be hand carried, he shall request approval by forwarding three completed copies of Form 1804, Request for and Appointment of Special Courier, (see EXHIBIT E), to Chief, OC-RMS along with the material to be hand carried at least one full working day in advance of the individual's departure. This will allow sufficient time for preparation of the pouch and approval of the special courier appointment to be granted or denied.

3. Release of Pouch

If approval is granted, OC-RMS shall prepare the pouch and will brief the special courier.

4. Pouches Hand Carried from the Field

An employee authorized by a Chief of Station or Base or an OC Area Chief to hand carry material to Headquarters shall deliver it immediately, unopened to the Chief, OC-RMS, for processing in accordance with normal procedure for incoming material. Should he arrive during non-working hours he shall leave the material with the OC-Signal Center Duty Officer for delivery to OC-RMS at the beginning of the next working day.

K. REPOUCHING OF LATERAL POUCHES/DISPATCHES

Lateral dispatches or pouches when received in OC-RMS are repouched to the addressee station unless the station is in a satellite country. In the latter case these are referred to the appropriate Division for action. OC-RMS, however, must be notified of the disposition of the pouch.

staff keying material and cryptosystems; vulnerabilities of cryptographic and related equipment; violations of cryptosecurity which would lead to cryptanalytic exploitation. This applies also to communications security matters relating to other U.S. government agencies and foreign governments.

a. Contents of the [REDACTED] pouch will include:

25X1A

(1) Dispatches on subjects designated CRYPTOGRAPHIC.

(2) Actual keying material (pads, tapes, keylists, etc.) and covering dispatches.

(3) Registered cryptographic material, devices and documents (whether or not a cryptographic clearance is required for access thereto), and their cover dispatches.

(4) Any "Cryptographic Clearance Required" correspondence material.

b. CRYPTO pouches are prepared by the Office of Communications, Security Staff.

* 5. Sensitivity Indicator

a. RYBAT is a sensitivity indicator used to insure special handling, restricted distribution, and maximum security of sensitive operational and administrative dispatches.

b. RYBAT is used when a dispatch contains matter which affects high policy, or concerns administrative, personnel or operational matters of such sensitivity that initial cognizance should be limited to the Office of Communications Area Chief, or a Chief of a DDP Station or Base.

C. SECURITY

1. Dispatches shall be written in such a way as to prevent the disclosure of sensitive information to unauthorized persons. To a certain extent this can be achieved by care in writing the dispatch, omitting unessential information and recasting or paraphrasing that which must be included, Cryptonyms and pseudonyms shall be used as necessary. They shall not be used in conjunction with their true names or with other information which tends to reveal or confirm their true identities. If a cryptonym or pseudonym does not exist, or if the meaning of the cryptonym or pseudonym would be apparent from the context, reference shall be made instead to: "Identity A", "Identity B", etc. In this case, the true name corresponding to the identity reference shall be sent by separate cover enclosure or if necessary by cable. The true name of the Agency or of distinctive components of the Agency shall never be used in a dispatch. Reference shall not be made in true name to the U.S. Government or to elements thereof.

2. True names of Agency employees shall not be used in dispatches.

3. Biographic information which would identify staff or agent personnel, or prospective personnel, shall be transmitted by separate cover enclosure in which the true name, pseudonym, cryptonym, or social security number of the individual shall not appear. In the related dispatch, the individual shall be referred to by pseudonym, cryptonym, or identity designator, as appropriate. If an identity designator is used, the name corresponding to the designator shall be given in a separate cover enclosure.

4. The provisions in subparagraphs C., 1. through C., 3., above apply also to transmittal manifests (See Section G).

5. A document which must refer to an Agency employee in true name, as a W-2 Form, or an enclosure giving the identity corresponding to an identity designator, shall be forwarded as a separate cover enclosure. True names must be preceded by proper courtesy title - Mr., Mrs., or Miss as opposed to pseudonyms in which the last name will always be typed in capital letters.

6. In addition to the above measures, highly sensitive documents should be separated into odd and even pages or cut vertically into two or more sections, each group of pages or sections to be forwarded separately.

7. Excerpts of pertinent Agency regulations governing the above, and additional dispatch and pouch security considerations are attached as APPENDIX A.

8. Questions concerning dispatch and pouch security shall be referred to the OC-Records Management Staff.

D. PREPARATION OF DISPATCHES

1. Format

Dispatches will be prepared on Form 53 (See EXHIBIT A), except those sent to stations where special considerations are in effect. For second and succeeding pages, Form 53a will be used. Courtesy copies may be prepared on "Letterex" paper. (For multiple station dispatches see paragraph F.)

5. Subject

Subjects are to be brief yet specifically define the matter discussed. Special indicators may be used and are to be typed in capital letters immediately preceding the subject. Example:

25X1A

[REDACTED] Overtime Payment - Joseph A. DOE.

6. Action Required/Reference

a. The indication of "Action Required" is optional. If used, write a brief statement such as "None", "For Information Only", "See para ____ below", etc.

b. References to dispatches shall be by number and date. References to cables shall be by station or Headquarters number and date. They shall be typed in the space immediately below "Action Required". References may be listed one below the other or, to conserve space, arranged across the page.

7. Processing Block

The "Processing Block" is for the Clandestine Service only and is to be ignored.

8. Content

a. Dispatches shall be limited to official business.

b. No more than one specific subject will be covered in a dispatch.

* 9. Signature

The D/CO, DD/CO, OC-O, and Chiefs and Deputy Chiefs of Staffs and Divisions, except for the Operations Staffs, are authorized to sign dispatches. Dispatches originated by the OC Operations Staffs will be signed by the OC-O, DD/CO, or the D/CO.

10. Date

a. The date the dispatch is prepared will be typed by the originating office at the left below the text on all Headquarters copies.

b. The date of actual release (which will be the date used whenever referring to a dispatch) will be typed or stamped at the right, in the space provided by the releasing office.

* 11. Dispatch Symbols and Numbers

a. Dispatches will be numbered with the appropriate Division or Staff symbol (as follows), followed by the last two digits of the current year, and numerical series beginning with 001. On 1 January of each year, the numerical series will revert to 001. Example: ADM 69-001.

b. The originator of a dispatch will obtain the appropriate number from the respective Division or Staff registry. If, after a number has been obtained, a dispatch should be cancelled, the issuing Division or Staff is to be notified immediately.

c. Should the same number be assigned to two separate dispatches, the issuing Division or Staff will rectify the error as follows:

(1) If the dispatch has not been pouched, a new number will be assigned to the dispatch bearing the latest date.

(2) If the dispatch has been pouched, the dispatch bearing the latest date will be amended by the addition of the letter "A" e.g., ADM 65-001 becomes ADM 65-001-A. In this case the Division or Staff concerned will be responsible for notifying the field.

OFFICE OF COMMUNICATIONS ORDERS

110. DISPATCHES

b. Sterilization

Enclosures are to be prepared in a sterile form, following the same procedures for dispatches and other official documents. If enclosures cannot be sterilized (received from another office already prepared, etc.), other appropriate means, such as split transmission shall be used.

c. Listing on Dispatch

(1) Enclosures will be listed at the lower left of the dispatch, two spaces below the typed name of the signer, with an indication of the number of copies of each enclosure, for example:

Enclosures:

1. DF Logs (1 copy)
2. Monitor Logs (2 copies)

(2) If the text of the dispatch consists merely of a transmittal sentence and a tabulated list of enclosures, it will be sufficient to indicate at the lower left, below the message, the following:

Enclosures: (number) as stated

d. Fragile Enclosures

When enclosures require careful handling during Headquarters processing and upon arrival at their destination, the following precautions will be taken:

(1) The transmittal dispatch will clearly indicate the nature of the enclosures.

(2) The enclosures will be placed

110. DISPATCHES

OFFICE OF COMMUNICATIONS ORDERS

in a sealed envelope which will bear the dispatch number and the notation "FRAGILE ENCLOSURE -- DO NOT FOLD, BEND, STAPLE, MARK OR EXPOSE TO LIGHT". This envelope will be clipped to the dispatch in such a manner as not to damage the contents.

(3) Fragility of the enclosures will be noted in the listing on the pouch manifest and on the innermost pouch wrapper by OC-RMS.

e. Separate Cover Enclosures

(1) The notation "UNDER SEPARATE COVER" or "USC" will be typed beside the listing of enclosures on the dispatch when the enclosures will not accompany the dispatch.

(2) Separate cover enclosures do not require a transmittal dispatch when forwarded. This applies also to the forwarding of identities (see Section C).

(3) When the dispatch and separate cover enclosures are sent to OC-RMS under a single routing sheet, the forwarding office will call specific attention on the routing sheet to the fact that the enclosures are to be forwarded by separate pouch.

(4) Separate cover enclosures to transmittal manifests or transmittal dispatches addressed to [REDACTED] and [REDACTED] or their field stations will be forwarded by OC-RMS prior to their respective transmitting document.

f. Separate Cover True Name Material

In order to eliminate the necessity for the preparation of transmittals for certain types of true name material normally forwarded to the field as separate cover enclosures, the following procedures are to be followed:

(1) Documents covering actions of a personnel nature such as travel orders, career service actions, biographic sketches, etc., will be listed on a pouch manifest as items under the true name of the individual concerned. If there is an identifying number to the document, this will be shown in the column under "Dispatch Number". Items such as Credit Union Statements, W-2 Forms, etc., will be entered only as items showing the total enclosed.

(2) The pouch manifest will be addressed in the same manner as a dispatch, but it will carry no signature. As the pouch manifest is a three-part set, a copy for the releasing Division, or originator if required, can be provided by adding a sheet of "Letterex" paper at the time of preparation.

(3) The manifest will be released by the appropriate Division on the pink copy.

(4) All copies of the manifest and attachments will be forwarded to OC-RMS which will assign a Headquarters pouch number, enter the date, and distribute the manifest copies.

(5) A sample manifest is attached as EXHIBIT B.

*1 copy Communications Officers, [REDACTED] elements, and other communications facilities.

25X1A

Yellow Copy Official Record Copy.

Blue Copy Official Chrono Copy.

Other Copies Division and other Headquarters distribution as required.

b. Field Distribution

(1) A listing of addressee field stations not covered by a category symbol will appear at the lower left of the dispatch below the listing of enclosures. An indication of whether enclosures are included will follow each addressee listed.

(2) Dispatches which fall under the Office of Communications Standard Distribution Categories will use the category symbol listed in

APPENDIX D. Multiple station dispatch instructions are contained in Section F.

- (3) If appropriate that field recipients be aware of Headquarters distribution, the Headquarters Distribution Category Symbol will be used (see APPENDIX D).

c. Headquarters Distribution

The listing of Headquarters offices receiving distribution will be shown at the lower left of the dispatch copies retained at Headquarters.

14. Originator

The originating officer shall sign his true name on the yellow copy of Form 53.

15. Coordination

a. OC Originated Dispatches

- (1) The originator of a dispatch shall determine the extent of coordination required, consistent with geographic, operational, and support considerations.
- * (2) The originator of a dispatch will ensure that coordinating signatures are obtained in the following order:
- (a) OC, Satellite Buildings.
 - (b) OC, Headquarters Building.
 - (c) OC Operations Staffs.
 - (d) Coordination other than OC.
- (3) Coordinating officers, within their spheres of responsibility, shall determine whether a dispatch is consistent with approved plans, policies, and procedures. Coordinators will sign the yellow copy of Form 53 in true name.

- (4) Dispatches shall be coordinated with the appropriate Operations Staff. Dispatches addressed to more than two OC areas need not be coordinated with the OC Operations Staffs.

b. Non-OC Originated Dispatches

In instances where coordination is sought on dispatches originated outside OC, the OC contact point will ensure that formal coordination is also effected with other OC Divisions and/or Staffs as appropriate.

16. Release

- *a. All dispatches and transmittals will be released by the D/CO, DD/CO, or OC-O. Those which raise a question of policy, initiate or significantly affect activities or projects, deny a request or disapprove an action or are apt to raise a controversy, shall be prepared for the signature of the D/CO and shall normally be released by the D/CO or DD/CO. [REDACTED] will release dispatches addressed to stations under their cognizance. Releasing officers shall determine, and by their signature, certify that the dispatch:

- (1) Has been properly classified, sterilized, addressed, and coordinated.
- (2) Is applicable, appropriate, and consistent with approved plans, policies, and procedures.
- (3) Is consistent with operational and security considerations pertinent to the subject matter and to the addressee.
- (4) Is consistent with the limitations regarding material which may be sent by pouch (see Section I).

- b. The releasing officer shall sign his true name on the yellow copy of Form 53 and his pseudonym initials after [REDACTED] on the "FROM" line; except when the releasing officer is the same as the signing officer, the initials may be omitted.

17. Security Classification and Group Marking

- a. The appropriate defense classification will be stamped or typed at the top and bottom of each page of all copies of a dispatch and its enclosures. If typed, capital letters separated by hyphens will be used, as S-E-C-R-E-T.
- b. The notation "GROUP 1 - Excluded from Automatic Downgrading and Declassification" shall be stamped, or in the case of reproduction master, typed adjacent to the classification at the bottom of the first page of each copy.

18. Priority and Telepouch Indicators

- a. The indicator Priority is to be used only for dispatches considered to be of such an urgent nature as to warrant interruption of routine dispatch processing. The indicator PRIORITY should be typed in capital letters just under the processing block. Form 160 (Priority Tag) should be attached to the covering Routing and Record Sheet.
- *b. Dispatches prepared for telepouch are considered of such an urgent nature as to warrant transmission by electrical means. The phrase VIA TELEPOUCH should be inserted in the "TO:" and/or "INFO:" line immediately following each addressee requiring electrical transmission. See OC Order 110.2, Telepouch System, APPENDIX A for a listing of Authorized Telepouch Facilities.

E. SENSITIVE DOCUMENTS

1. RYBAT operational dispatches will be prepared, coordinated, and released as a regular dispatch. The sensitivity indicator will be stamped below the defense classification at the top and bottom of each page.
2. Personnel RYBATS will normally be originated by OC-A and released by the D/CO. The official record copy of personnel RYBATS will be filed in OC-A and a dummy dispatch indicating addressees, subject, and dispatch number will be prepared for OC-RMS files.
3. Sensitive dispatches will be enveloped and delivered to OC-RMS Sensitive Document Unit for processing.

F. MULTIPLE STATION DISPATCHES

1. A dispatch addressed to four (4) or more stations constitutes a multiple station dispatch. These dispatches are to be prepared on Form 53 and 53a in the same format as a regular dispatch (See EXHIBIT C), except the addressee line will be left blank for later insertion of actual addressees. Category symbol(s) for standard field distribution patterns shall be used to inform addressees of other field recipients when applicable.
2. The original and yellow copies of Form 53 and 53a will be sent to PSD with a Printing Services Requisition, Form 70b, attached indicating the number of copies to be reproduced for each copy.
3. The complete list of addressee stations will appear only on/or attached to the official record copy. The originator is responsible for entering the addressees, assuring that proper distribution is indicated, that collation is completed, and that proper number of copies are assembled for forwarding to addressees.
4. Multiple station dispatches are to be released in accordance with the provision of Section D, 16.

G. TRANSMITTAL MANIFEST

- *1. In order to eliminate unnecessary paperwork, the use of Form 1236a, Transmittal Manifest (EXHIBIT D), is encouraged as a substitute for a transmittal dispatch when the material being forwarded requires minimum explanation or directions. The Transmittal Manifest will show the quantity of each item being transmitted.
2. The Transmittal Manifest shall be prepared in a sterile form and in the same manner

*as a dispatch with regard to addressing, dating, originator, and releasing office responsibilities. A dispatch number will not be assigned to transmittal manifests.

*3. Two (2) copies of each transmittal manifest are required by Area Headquarters. Other communication facilities will receive one copy of the transmittal. "Letterex" tissue should be used to produce additional copies as required.

*4. Except for material specifically covered by special procedures, the transmittal manifest shall be delivered to OC-RMS with the material which is to be forwarded firmly attached. Any material which is to be forwarded separately shall be so identified and clipped, not stapled, to the transmittal.

H. DISPATCH PROCESSING

1. Releasing Office

a. After a dispatch has been released, dated, and if necessary, reproduced by the appropriate office, it will be assembled and forwarded to OC-RMS as follows under a Routing and Record Sheet, Form 610, upon which should be noted any special pouching instructions for OC-RMS:

(1) Copies for the addressee.

(2) Copies to be sent to information addressees in the field.

(3) Yellow official record copy with background material firmly attached.

(4) Headquarters file copies.

b. Enclosures forwarded with the dispatch, either to the action addressee or to

information addressees, shall be firmly attached to the appropriate copy of the dispatch.

c. Separate cover enclosures shall be so identified and placed below the last copy of the dispatch.

d. Form 26, Control and Cover Sheet for TOP SECRET Documents, is to be used on TOP SECRET dispatches. TOP SECRET dispatches must be hand carried through coordination, release, and delivered to OC-RMS.

2. OC-RMS

OC-RMS is responsible for:

a. Screening outgoing dispatches for discrepancies (i.e., absence of enclosures, lack of appropriate number of copies, etc.) compliance with prescribed format, procedures, sterilization and security regulations, and releasing signature.

b. Preparing and forwarding pouches, via normal or special channels.

c. Arranging for shipment of oversize equipment and materials via pouch channels.

d. Obtaining clearance and preparing pouches for hand carrying.

e. Securing weight and size waivers as necessary.

f. Returning to the originator material which is improperly prepared.

I. POUCH TRANSMISSION FACILITIES AND LIMITATIONS

*1. Limitations^{1/}

"The material which the Organization forwards by pouch is subject to the limitations applicable to the diplomatic pouch. The diplomatic pouch is, by international agreement, to contain only diplomatic correspondence and documents. It is not to be used for personal mail. Each diplomatic pouch carries an official seal and certification that the contents consist only of diplomatic correspondence and documents. The seal and certification, on a reciprocal basis, guarantee freedom from customs inspection and import duty. Diplomatic pouches will not be used for perishables, liquids, explosives, fire-arms, ammunition, nitrate film, magnetized material, etc. Restrictions on the shipment of of the items listed above may not be waived."

4. Special Shipments

* a. Staffs or Divisions originating shipments of equipment to be forwarded through classified pouch channels have the responsibility for notifying the field that such shipments are enroute if such notification is necessary.

* b. OC-RMS will establish the pouch channel and proper addresses, obtain dates of the estimated arrival of the equipment in the field, if available and required; and will provide this information to the Staffs or Divisions upon request.

J. HAND-CARRIED CLASSIFIED MATERIALS

1. Formal Authorization Mandatory

Under no circumstances shall classified material be hand-carried to the field by persons who do not have proper approval. This includes equipment of a classified nature which ordinarily would be transmitted by pouch. Because of the security hazard, material shall be hand-carried only in emergency situations where the necessity for immediate delivery outweighs the possibility of a compromise of security.

2. Request for Approval

If the office head concerned considers it essential that material be hand-carried, he shall request approval by forwarding three completed copies of Form 1804, Request for and Appointment of Special Courier, (see EXHIBIT E), to Chief, OC-RMS along with the material to be

4. Use of Code Designations

a. "The fact that a code designation for a non-██████ entity is available does not mean that it should be used in every instance. Code designations will be used only when disclosure of the true identity of persons, organizations, or activities would reveal covert or sensitive relationships in connection with ██████ or when such disclosure would be harmful or detrimental to the interests of ██████ or the persons, organizations, or activities concerned."

b. "Code designations and the true identities thereof will not be transmitted to and from the field in the same cable, dispatch, or pouch."

c. "Cryptonyms and pseudonyms will not be used in communications when their true meaning is clearly deducible from the content of the message. (In the event that a communications cannot be worded in such a manner to eliminate revealing words or phrases, identity designators will be used in place of cryptonyms and pseudonyms.)"

d. "Aliases will not be used in communications between Headquarters and the field."

'NOTE: Since aliases are used overtly, they should be regarded and treated as true names. Thus, aliases may be sent to and from the field as separate cover attachments so that Headquarters will be aware of their use and be able to card them, but individuals should not be referred to by alias in a dispatch as a means of identifying an individual any more that you would use any other sensitive true name (such as that of an Agency employee or a sensitive target true name)."

in or attached to a dispatch, but will be sent
as a separate cover enclosure to a transmittal
dispatch."

c. "The transmittal dispatch will be signed,
as in any other case, in pseudonym."

d. "True-name material will always constitute
a separate pouch; it will not be included in a
pouch containing sterilized material, nor will it
be included in the same pouch with its transmittal
dispatch, or any other dispatch, or any material
which would identify the pouch as having originated
in this Agency."

e. "A true-name pouch will not be used for
the transmission of unsterilized material except
as outlined above."

110.2 TELEPOUCH SYSTEM

A. GENERAL

The purpose of this Order is to establish the Telepouch System within the Office of Communications and to provide procedures for the administration of the system.

B. REFERENCE

OC Order 110.1, Dispatches, dated 29 November 1965.

C. SCOPE

- * 1. The OC Telepouch System is effective 1 April 1967 and permits the electrical transmission of dispatches

25X1A

* 

authorized to exchange OC telepouches with OC Headquarters and with their respective Area Headquarters.

D. PROCEDURES

1. The OC Telepouch System should be used only when the contents of a dispatch require timely delivery, but not to the extent that the use of a cable is necessary.

- * 2. Originators will follow the procedures listed in the reference for the preparation of dispatches, except the lines of the text should not exceed 69 spaces, including indentations, spaces, and characters. Telepouch transmission will be indicated by typing "VIA TELEPOUCH" in the "To" and/or "Info" line immediately following each addressee requiring electrical transmission, i.e., To  VIA TELEPOUCH, Info:  VIA

OC Order 110.1 Dispatches, dated 29 November 1965.

C. SCOPE

The OC Telepouch System is effective 1 April 1967 and permits the electrical transmission of dispatches

25X1A

included in this system at this time.

D. PROCEDURES

1. The OC Telepouch System should be used only when the contents of a dispatch require timely delivery, but not to the extent that the use of a cable is necessary.

2. Originators will follow the procedures listed in the reference for the preparation of dispatches except the lines of the text should not exceed 69 spaces, including indentations, spaces, and characters. Telepouch transmission will be indicated by typing "VIA TELEPOUCH" in the "To" and/or "Info" line immediately following each addressee requiring electrical transmission, i.e., To [REDACTED], [REDACTED] VIA TELEPOUCH, Info: [REDACTED] VIA TELEPOUCH. The absence of the phrase "VIA TELEPOUCH" will indicate to OC-RMS that the dispatch is to be forwarded via normal pouch channels. If telepouch transmission is disapproved by the releasing officer, he will line through the phrase.

3. Telepouches should not contain extensive lists of numbers subject to difficult processing such as stock control numbers, equipment serial numbers, etc., unless absolutely necessary.

E. RESPONSIBILITIES

1. OC-RMS

a. Outgoing

Telepouches will be routed to OC-RMS. OC-RMS will screen telepouches for discrepancies, compliance with prescribed format, procedures, sterilization and security regulations, and releasing signatures. OC-RMS will hand carry one copy to the OC-Signal Center for electrical transmission and will pouch via normal channels to those addressees, if any, not requiring electrical transmission.

b. Incoming

Telepouches will be received from OC-S/C on NCR paper. OC-RMS will cut and assemble into page length; coversheet with Routing and Record Sheet, Form 610; and disseminate according to established procedures for incoming dispatches.

2. OC-S/C

a. Outgoing

OC-S/C will prepare the tapes and electrically transmit to the appropriate addressee(s).

b. Incoming

Field originated telepouches will be received in the OC-S/C on NCR paper. OC-S/C will edit the original, make any service action required, and forward three (3) copies to OC-RMS.
